The Second Day's Proceedings at Boston.

NOTHING STARTLING DONE.

Only Routine Business Accomplished Besides Listening to Several Speeches Made by Weil Known Grand Army

Boston, Aug. 15,-The Grand Army encampment was not called to order until nearly 11 o'clock yesterday. Past Commander-in-chief Morrill presented the report of the pension committee, which was adopted by a unanimous rising vote. The encampment expressed its thanks for the valuable report of the committee.

At this point Gen. Alger requested Comrade Sherman to step upon the platform, and as the general walked down the aisle there was a storm of ap-planse and cheers. Comrade Warner was then requested to ascend the platform with Past Commander-in-chief Devens. Gen. Sherman then in a feeling manner presented Comrade Warner with a beautiful candelnora set. Comrade Warner eloquently responded.

The presentation was made in behalf of the National encampment. Com-mander Alger then announced that a committee from the Woman's Relief Corps was in waiting, and it was voted to receive the delegation. Mrs. Knowles, the head of the delegation, was introduced and was loudly applauded. She made a short speech of congratulations and sympathy and gave some interesting statistics of the prosperity of the Woman's Relief Corps.

Commander Alger made a short response expressive of the hearty appreciation by the Grand Army of the work of the corps. The ladies then with-

The encampment at 1 o'clock took a

recess until 2 p. m. At the afternoon session resolutions were adopted favoring the removal of Gen. Grant's remains from Riverside to Arlington, provided it was in accordance with Mrs. Grant's wishes; thanking congress for passing and the president approving pension laws: favoring the making of Ford's theater, in Wash-ington, a National museum for war mementoes, and favoring the exemption of veterans for examination in classified civil service. The majority report of the committee on pensions was rejected, and a minority report was substituted. It affirms and endorses the resolutions passed at former encampments and asks for the passing of a service pension bill. B. F. Stevenson, of Cynthiana, Ky., was elected surgeon-in-chief, and Myron W. Reed, of Denver, chaplain-in-chief. Gen. Vensey named as his adjutant general, Joseph H. Goulding, of Rutland, Vt., and John Taylor, of Philadelphia, quar-

termaster general. After the installation of officers the

encampment closed. The principal events of Grand Army week were fittingly concluded yesterday evening by a grand banquet in Mechan-ics hall, complimentary to the delegates to the encampment and invited guests. Among the invited guests who occupied the seats of honor were Gen. Sherman, Governor Brackett, Mayor Hart, Lientenant Governor Haile, Gen. Sickles, Collector Beard, Hon. John D. Long, and Past Commanders-in-chief Devias,

Merrill. Kouatz, Fairchild and Warner. At 9:30 the new canmander-in-chief, Judge Veasey, entered with Corporal Tanaer. This was the signal for a great shout, the veterans arising, waving handkerchiefs and napkins and shouting

"Veasey, Veasey."

At 9:50 Gen. Alger came in and was similarly greeted, the veterans arising at the eall of Department Commander Innis and giving three cheers for the past commander-in-chief.

It was 10:30 before the last course-an elegant and well-filled cigar case bearing the likenesses of Alger and Innishad been served to each gentleman present. About 11 o'clock Col. Charles H. Taylor, of The Boston Globe, was introduced as toastmaster of the evening, and in his own inimitable way proceeded to address the assembly. After a few preliminary remarks Col. Taylor introduced Maj. Morrill, who briefly responded in behalf of ex-Governor Long, chairman of the executive committee, who had been obliged to with-

Commander-in-chief Veasey was then introduced. He was very hoarse from much speaking and after a few remarks

in the endeavor to get order, thanked the soldiers for their cordial greeting, not to him, but to his office.

Col. Taylor then introduced Governor
Brackett who responded briefly.

Gen. Sherman was then introduced

and addressed the assembly. After referring to his own pleasure in Boston's entertainment, the general said; "I am glad that you have taken command. I have seen one young man pass to-day and a new one installed with that gentleness and subordination to author-ity which makes our American history, and which is the best promise of a glorions future of any single feature in our American government. NEW YORK, Aug. 15. - Details of the wreek of the British steamship Paramatta reached this city Wednesday. The vessel sailed from Melbourne, Australia, homeward bound, on July 20. On the seventh night out she came into collision with the bark Ethel Mary, of Milford Haven, bound for Auckland.

The latter was cut almost entirely in twain, and sank shortly after the accident. Her crew was saved. The steamship was also badly damaged by the collision, and began leaking so freely that it was impossible to keep her nfloat. After ten days hard work at the pumps, during which time signals of distress had been constantly displayed, and when the passengers were all about to desert the ship, the American ship Amboy hove in sight and took off all hands but Capt. The men were entirely broken down when rescued and could not have stood their fufferings much longer. The Paramatta was one of the finest ships in the Australian service of the P. & O. NEWS comes from the East that the Newark leather manufacturers have advanced prices 10 per cent. all round, assigning as a reason for their action the increase in the duties on raw hides and oils. If the people of the country have to pay higher prices for footwear, they can lay the matter at the doors of the present Republican administration.

THERE are nine Democratic candidates for Congress in the district just across the river, and the coming convention at Georgetown promises to be a lively one. The aspirants are Pattison, White, Tyler, Hough, Dickey, Washburn, Eylar, Pennell and Steele. The fight for the Republican nomination will not be slow either, as there are seven of the faithful mentioned as candidates, among them four from Brown County-Shelton, Williams, Dunham and Young.

It's rather amusing to hear how some of the g. o. p. journals talk. Here's the Buffalo Commercial remarking that "Tennessee Republicans have a fine chance of carrying the State this year." Yes, Tinsley was going to defeat Longmoor by 10,000 majority a few days ago, but when the votes were counted he lacked only 60,000 of the required number. And the Cincinnati Commercial-Gazette actually had the Union Democrats in open revolt against Longmoorbefore the election.

Ever since the election there have been rumors of a contest and on Wednes- ent. day the rumor took shape by Mr. Parker serving the usual legal notice of contest on his late opponent.

The notice states a great many grounds for unseating Mr. Darrow. For instance. Parker charges that fifty minors voted for his opponent; also that fifty persons who had not been in the State, county and precinct the length of time required by law voted for Darrow. He charges, in addition, that many residents of Ohio came over and patriotically deposited late; that in Mowers' and Concord pr cincts the polls were kept open until the campaign is ended. eight and nine o'clock, contrary to law. which required the closing of the polls at 7 p. m. During our epidemic of dysentery in the summer of 1879, I sold 108 bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and It proved satisfactory in every instance. The remedy is standard in this community.—Geo. B. Dunbar, druggist, Center Point, Iowa. The epidemic referred to was by far the worst that has ever occurred in Iowa. Over 40 persons died from it in a town of only 500 inhabitants; but every case in which this remedy was used recovered. It was equally successful during the epidemic of bloody flux in Virginia in 1887, au ' in Michigan and Southern Illinois in 1888. It has been in constant use for over eighteen years, and has proved itself to be the most successful medicine yet discovered for bowel complaints. For sale by Power & Reynolds.

A plain statement to the citizens of Maysville. Since I have been here as pastor of the above named church, i have heard it repeatedly stated that the church was reported, perhaps over a year ago, as being out of debt. Therefore, I deem it my duty to correct said report. The church is in debt to the amount of \$1,016, over \$700 of which is borrowed money, together with interest on same, from the Church Extension Society of Philadelphia, Pa., and is past due. The rest is owing to citizens here in this city.

In view of meeting the above Indebtedness, all ot which is due and payable, the trustees have authorized the members to solicit money from generous friends on the same. All contributions will be thankfully received.

A YOUNGSTER'S ASTONISHING RECORD

"Will wonders never cease?" asked an old woman. We answer: we think not, so long as there's enough sand, grit and backbone left to make "snap." This refers to our young trotter now just turning its first year. But a twelve-month ago it first heard the magic word "go." Starting finely, abreast of old trot ters who had the advantage of years of training at the hands of experienced grooms and professional drivers, he distanced the field, and has become the favorite of all those who admire the quality of "go," whether it be in horse, man or machine. And everybody admires the spirit of it. The name of our yearling is the

SOUTH SEA SLAVE TRAFFIC.

It is Sald to Be Carried On Under the Protection of the British Flag-Another Ukase Issued by the Czar-Other Foreign News.

London, Aug. 15.—Horrible accounts are received of the slave labor traffic by British planters in the south sea. The Presbyterian mission synod in the New Hebrides has passed a resolution to the effect that "The Kanaka labor traffic had, to a large extent, depopulated the New Hebrides and adjoining islands, upset family relations among the natives, and has been and is the cause of

much sorrow, suffering and bloodshed."

A missionary named Paton reports that he had himself seen white men in their boats taking Kanakas to a labor vessel—as the slave ships are called forcibly lifting them on board, and when they tried to swim ashore they were knocked down again and again until they lay stupefied on deck and were thus carried out to sea.

Those thought likely to escape are fastened with chains on board. A chief was shot dead by the crew of one of these vessels while attempting to protect his daughter, and a native Christian teacher was also shot dead.

This slave trude is carried on under the protection of the British flag for the benefit of planters in Queensland and the Fiji islands.

Does the Czar Favor Peace?

St. Petersburg, Aug. 15.—An important indication of the disposition of the czar to maintain peace is furnished by a nkase which has just been issued, to the effect that all the infantry and artillery recrnited in 1885, 1886 and 1887 are to be transferred to the reserves after the summer maneuvers. This will, of course, make a great reduction in the effective struggle of the Russian army. The measure remits a year of active service in the contingent recruited in 1886, and two years from that of 1887. Moreover from the beginning of next year the term of service will be reduced from five to four years for the whole of the infantry and the foot artillery regi-

The Atlantic Cattle Trade.

London, Aug. 15.—The agitation started by Mr. Samuel Plimsoll over the question of the cruelty of the Atlantic cattle trade is growing greater every day. Frightful pictures are drawn of sufferings which the animals are compelled to undergo on the voyage between England and America. An attempt is also being made to prove that the meat of these animals is unfit for food under of these animals is unfit for food under the present conditions of transport. A bill has already been introduced into parliament on the subject, and Mr. Henry D. Plimsoll, a brother of the ex-member, who is known as the "Sailors' Friend," is now in America collecting evidence for the crusade.

at Belfast. The pickets have been doubted and every other precaution against a revolt has been taken, but the likelihood of trouble is still very great. The discontented feeling among the troops in Ireland is similar to that which obtains so generally in England, and the clamor for an official investigation of the causes of the trouble and redress of the grievances of the men is increasing.

KNIGHTS OF LABOR.

State of Affars in the Central Strike and Other Labor News.

ALBANY, Aug. 15.-The Central railroad has broken the blockade, and at noon four freight trains were moved west and three south. Each train was protected by about twenty Pinkerton men. No opposition was made by the strikers. The men on the Delaware and Hudson road went back last night withont any concessions being made by the road. The strike, so far as the roads are concerned, seems to be over, although the men are as strong in numbers and as confident as ever. There was a fracas nt East Albany yesterday evening between Pinkerton men and strikers, in which the latter were worsted. No blood was spilled, but two prisoners were rescued.

No Change at Syracuse.

SYRACUSE, N. Y., Aug. 15.—The only change in the strike here since yesterday is the greater frequency with which freight trains are moving east and west. The Knights of Labor are as confident of success as they were when they first went out, and they hint mysteriously at future developments which, they say, will determine the struggle in their favor. Outside of their own statements. however, there is no evidence to sustain their view of the stri

DETROIT, Aug. 15.—The general executive board of the Knights of Labor left this city for New York at 10:55 yesterday evening. It is understood they intend to complete their work there. In a speech before an assemblage of knights Mr. Powderly said he and his comrades were going to New York to demand urbitration in the matter of the New York Central strike. Just before leav ing the city Mr. Powderly stated that they had heard nothing from District Assembly No. 248. They thought it strange, and were going to investigate.
